About Me

I bring clarity to complexity by aligning people, purpose, and technology. I strive for excellence, built on trust and transparency. I believe that honest leadership and human connection are what make real progress possible.

Areas of expertise IT Strategy, Business Development, Product Management

Employment

Schuberg Philis

Customer Director, 2017–present

- I work with diverse expert teams for customers in vital industries—with full end-to-end and P&L responsibility. We uncover the business challenges behind technology questions to deliver high-quality, tailored, impactful solutions that meet the highest standards of security, reliability, and performance. Customers include Port of Rotterdam, Schiphol, Heineken, NS
- Member of the Public, Utility, and Retail (PUR) leadership team
- Member of the COM Council

AFAS Software

Platform Manager, 2015–2017

- Worked on the successor of the successful AFAS Profit product stack: AFAS NEXT (now AFAS SB), a platform for generating cloud-based ERP suites—tailored to individual customer organizations through ontological models
- Founded the AMUSE research initiative: a collaboration between academic partners (Vrije Universiteit Amsterdam, Utrecht University) and industry partners (AFAS Software).

Product Manager, 2011–2015

- End-to-end responsible for the roadmap, design, build, and delivery of the AFAS Profit ERP software suite
- Shipped more than 150 projects across Profit Finance, CRM, Projects, Order Management, and Subscriptions to more than 10,000 customers in retail, education, healthcare, construction, wholesale and other industries

Utrecht University

PhD Researcher, 2008–2011

- Conducted a PhD research directed at revealing the potential of software feedback, i.e., knowledge of in-the-field software operation, within Dutch independent software vendors. Created Nuntia, a binary instrumentation and recompilation tool. Successfully defended my PhD thesis after 3,5 years of research
- Led an industry workgroup with software vendors from the Netherlands, bridging academics and industry to gain early feedback and share research results

Stabiplan (now Trimble)

Senior Software Engineer, 2008–2011

DEVENTit

Junior Software Engineer, 2003–2008

Education

- PhD in Information Science, Utrecht University, 2011
- Master in Information Science (Business Informatics research master), Utrecht University, 2008
- Bachelor in Computer Science (Business Studies minor), Utrecht University, 2006
- VWO (Natuur & Techniek; Informatica, Economie 1), Grifland College, 2003
